MASTODON
The New Giant Everbearing
The Most Successful Commercial Berry on Market

A Real Wonder—It is the largest everbearing berry grown. Mastodon is the most prolific, the fruit is the most useful, and the berry is the most delicious with the soil strawberry flavor. It is a berry that bears early and late, one that can be picked all Spring and Summer. Many of the berries grow as large as a silver dollar, and many as large as a quarter. Mastodon is being shipped locally, and will be known throughout the Middle West.

Weeds that were in May this year, have produced as high as three quarters per plant. A field of this Mastodon in bearing is a sight never to be forgotten.

ALFRED

Here it is at last, THE ALFRED.

lack of space forbid a description of all the varieties of this variety, however, we will briefly call attention to the outstanding one, viz: the ALFRED is superior to all other varieties. It is a beautiful variety, with a large, bright, red fruit, possessing a fine, sweet flavor. It is not insists that the fruit will increase in size and flavor value.

REASONS OF SEASON;
ALFRED is such a healthy, vigorous grower that a good crop of berries for your following year's Harvesting.

It is not unusual to find a year in which the buds and blossoms are not the same as the last year's harvest.

SUMMARY:
This is our rock-bottom feature. This is the most reliable feature. It is a tree with ten to ten days earlier than Eldorado and in production, it is a three to four days earlier than any other variety we have ever seen. We are excited perfectly healthy, having withstood a temperature of 18 degrees below zero without injury. It will produce more fruit per plant than the best of the old reliable varieties, and is certain to bring the highest prices. It is the first prize winner in every contest. This variety is also beautiful, large, black, blackberry, and the juice is sweet and flavorful. It is the first prize winner in every contest.
